

Shipping Careers

IDEAS PEOPLE WANTED

A career with Shell is more than just a day job. It's an opportunity to join a company who tackle real world problems. Joining Shell means getting more out of your working life than you thought possible.

At Shell Shipping, we are proud to have such diversity within our fleet personnel. The greater the variety of perspectives we have on board, the greater the ideas we can develop. Now we need more people who can apply fresh thinking to the energy challenge.

Did you know?

Shell is the largest charterer of oil tonnage in the world. LNG cargoes have been delivered safely from Shell and joint venture operations for over 45 years. In the last decade, we successfully completed 450,000 million tonne sea miles of LNG transportation. Around a quarter of the world's LNG carriers are linked to Shell and our joint venture partners. We work with shipping agents in about 250 ports. About 3,500 seafarers work for us. Our ship inspections – around 4,700 a year, help to continually assure standards in the industry.

Experienced Officers

We value the calibre of our personnel and are committed to recognising and developing the marine expertise of our teams in positions at sea and ashore.

Excellent opportunities exist for continued career progression.

As an officer you will benefit from a well established training scheme as well as the opportunity to develop experience working on our growing fleet of oil and LNG ships. Ashore, there are numerous management and operational positions around the world which will develop and enhance your marine expertise.

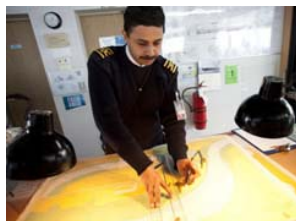

Our belief is that success is your own making, so prove to us that you have the drive and motivation to make a difference.

What we offer

- A highly competitive salary
- Career opportunities ashore
- Air travel assistance for partners
- 28 days' leave earned per month at Senior Officer level
